Located in the south of the Netherlands near to the Belgium and German border, we have manufactured flocked paper, board and polystyrene, flock fibres and security fibres on the site for several decades.

Krekelberg Flock Products was founded in 1948 by the Krekelberg Brothers. Mr. Geelen bought the company in the end of the 70ties, today he is still co-owner. Since 2002 the company is managed by the co-owner Ruud van Keeken.

From our 6000m<sup>2</sup> factory in Maasbracht we produce more than 2 million m<sup>2</sup> per year of flocked products.

Modern production facilities and strict quality control ensure a sustainable, high quality product every time.

further information at:

[www.faoe.eu](http://www.faoe.eu)

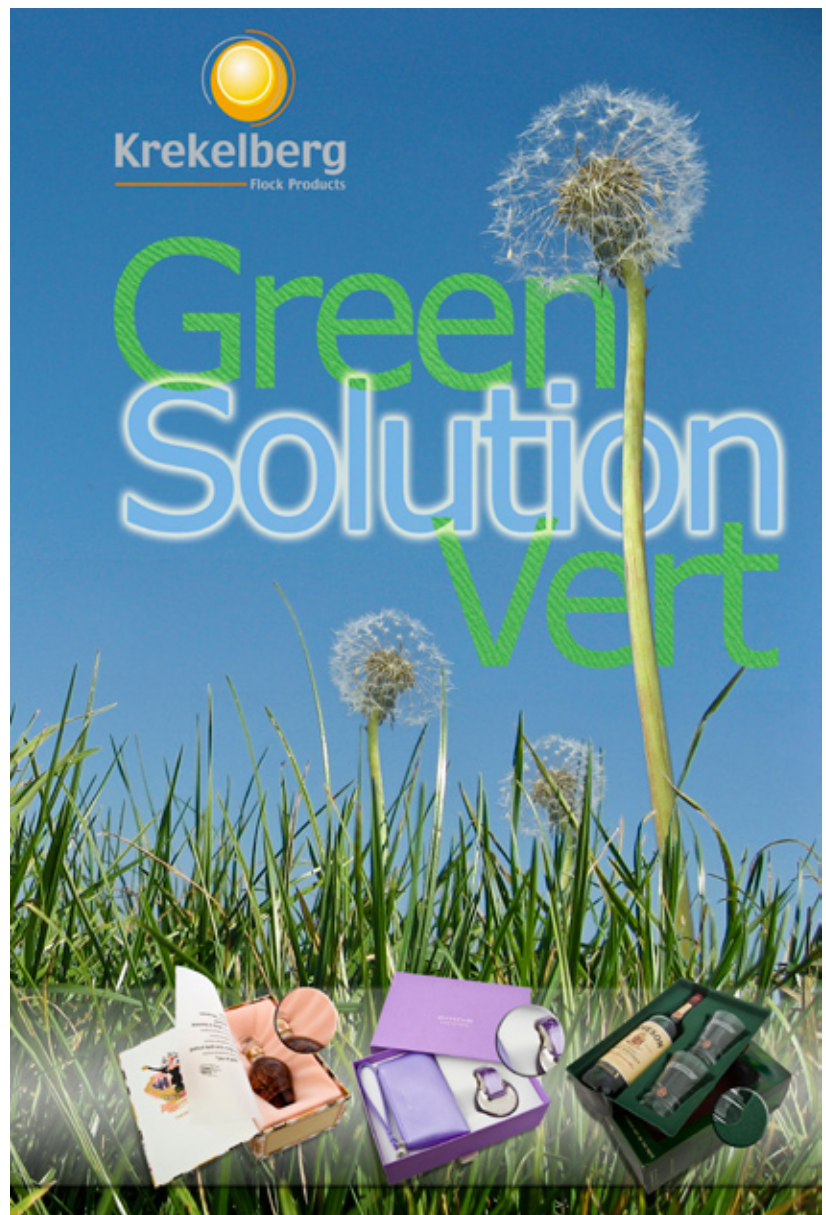

A fully equipped modern laboratory enables us to offer a bespoke colour matching service. Thanks to our laboratory facilities we are able to develop innovative products and refine our existing products.

Our products can be found worldwide and are first choice for the luxury packaging market including Cosmetics, Champagne, Cognac, Whiskey and Cutlery.

Quality, reliability and service are our priorities.

Further information about our products can be found at [www.krekelberg.nl](http://www.krekelberg.nl)

Wir stehen auf die "LuxePack" Monaco am 20, 21 und 22sten Oktober 2010, Halle Atrium A1. Für weitere Informationen: [www.luxepack.com](http://www.luxepack.com).

## Note now

# 21st International Flock Symposium 2011

28. and 29. of March 2011 in Munich

2011 not only the 21st International Flock Symposium but also interesting Innovations will be presented. We also celebrate

**30 years Flock Association of Europe**

We are looking forward to a reunion with our members, interested parties in flock and of course newcomers to Munich

The programme will be available shortly.

## ...this FLOCK-News could contain an ad from you?

This unique newsletter for the flocking industry is delivered to over 850 recipients at the moment. Apart from the members of the Flock Association of Europe e.V., there are also recipients who have requested the Newsletter on our homepage [www.flock.de](http://www.flock.de). Based on the concept to generate the FLOCK-News as a digital medium, it is also largely distributed within the companies subscribed to it and also on internet pages which make these FLOCK-News available to their visitors as well.

Use FLOCK-News in order to reach your potential customers world-wide with a targeted advertisement. For further information please contact us at +49 (0) 9546 595840 or by email at [info@faoe.eu](mailto:info@faoe.eu).

## TV fills new halls and presents new trends

TV TecStyle Visions, 2-4 February 2012, Stuttgart – around 200 exhibitors and over 9,000 visitors expected

Europe's leading trade fair for the textile industry, TV TecStyle Visions, will be held in 2012 on 2-4 February. This time round the exhibitors will be moving from the right to the left-hand side of Stuttgart's trade fair halls. The fair will be located in the left section in halls 4 and 6, covering a total of 20,000 gross square metres.

The organisers, Messe Stuttgart and gmk Veranstaltungsservice GmbH, are confident that the seventh international trade fair for textile printing, embroidery, transfer and flocking will continue the success enjoyed by the previous events. Around 200 exhibitors and over 9,000 visitors are anticipated, with every fifth visitor expected from abroad. Since the beginning TV TecStyle Visions has rapidly developed in terms of the number of participating exhibitors and visitor popularity. „Our goal in the future is therefore the further internationalisation of the TV. We will be targeting our efforts on driving this forward,” says Ulrich Kromer, Managing Director of Messe Stuttgart.

The exhibitors, which include many market leaders from Germany and abroad, will be presenting their innovations in the areas of textile screen printing, flocking, transfer printing, embroidery and digital textile printing as well as textiles and printable materials.

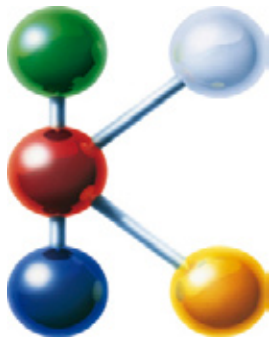

Furthermore, TV TecStyle Visions will also be presenting the latest promotion-wear collections.

„The current trend area of rhinestones will be extended to form a further focus area. We have also increased the list of featured products to include rhinestone system solutions, software, consumables and miscellaneous items from the rhinestone area,” explains Roland Gruber, Managing Director of gmk.

An extensive supporting programme will once again provide trade visitors in 2012 with new additional information. Ideas and preparations are currently well underway.

The text file as well as trade fair photos from the last TV TecStyle Visions and trade fair logos are available for downloading at [www.tecstyle-visions.com](http://www.tecstyle-visions.com).
